Class Notes Answer Key

1. If you do not have the poster from Lesson 13, use a poster/white board and add these drawings to complete the days of creation.
2. Divide the board into three equal areas using two horizontal lines and number the sections.
3. Explain that students will add Days Five and Six to the Class Notes today.

Day 5 – Draw little *ms* around the cloud for the flying creatures. Draw a simple fish under the waterline. Add a whale and plesiosaur under the water.

Day 6 – Draw a simple dinosaur and a dog on the right side of the land area. Draw a man (Adam) and a woman (Eve). Stick people are fine to draw. You may want to draw them behind a bush.
