

TRUTH MATTERS

Part 4: God caused

1

In the end, there are only two possibilities for everything that exists:

- It has always existed and is uncaused
- It had a beginning and was caused by something or someone else

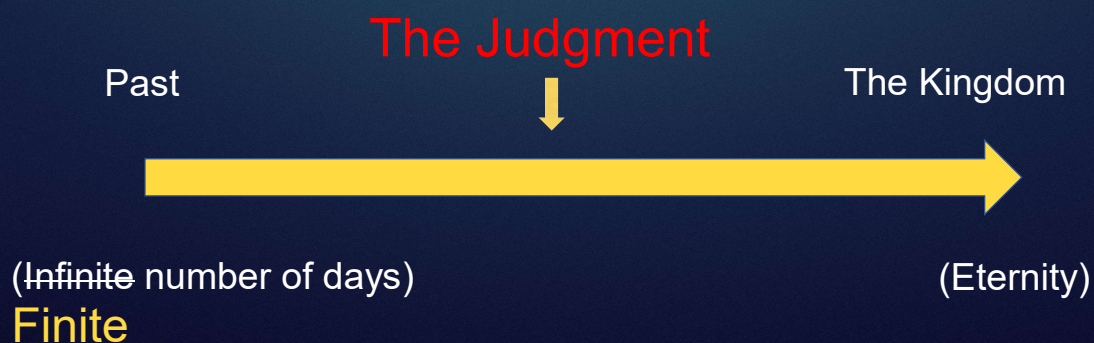

2

Time: infinite or finite?

1. An infinite number of days has no end
2. But today is the end day of history
3. Tomorrow is an “addition” to time

3

Scripture says “The Judgment” is in our future

Time will give way to God's eternal purpose

4

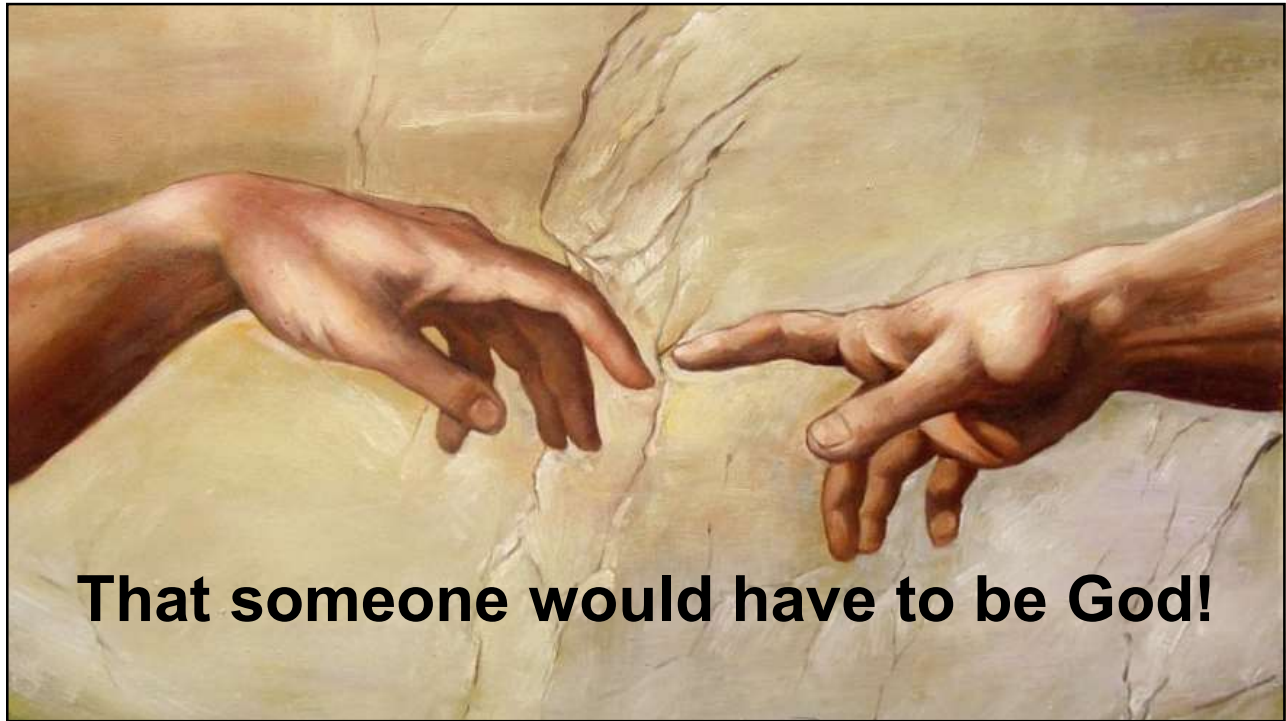

Kalam Cosmological Argument:

1. Everything that begins to exist has a cause
2. The universe began to exist
3. Therefore, the universe must have a cause

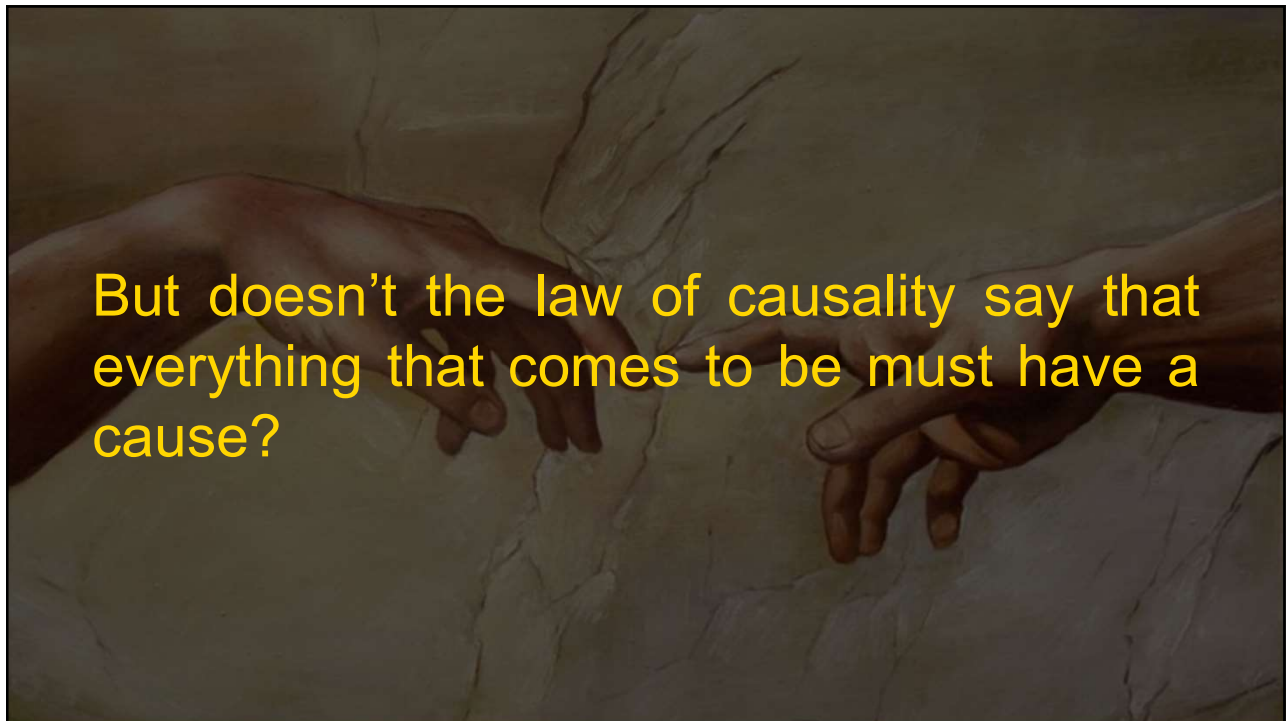

5

But what could have been that cause?

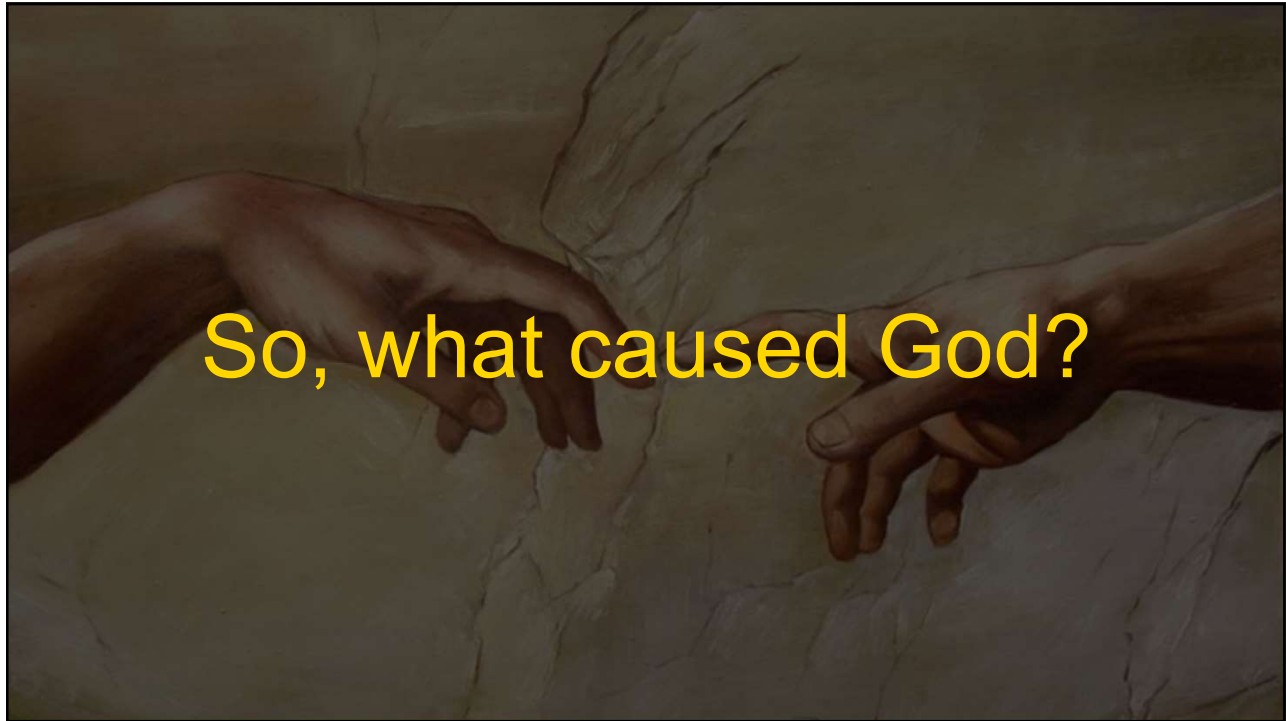

6

7

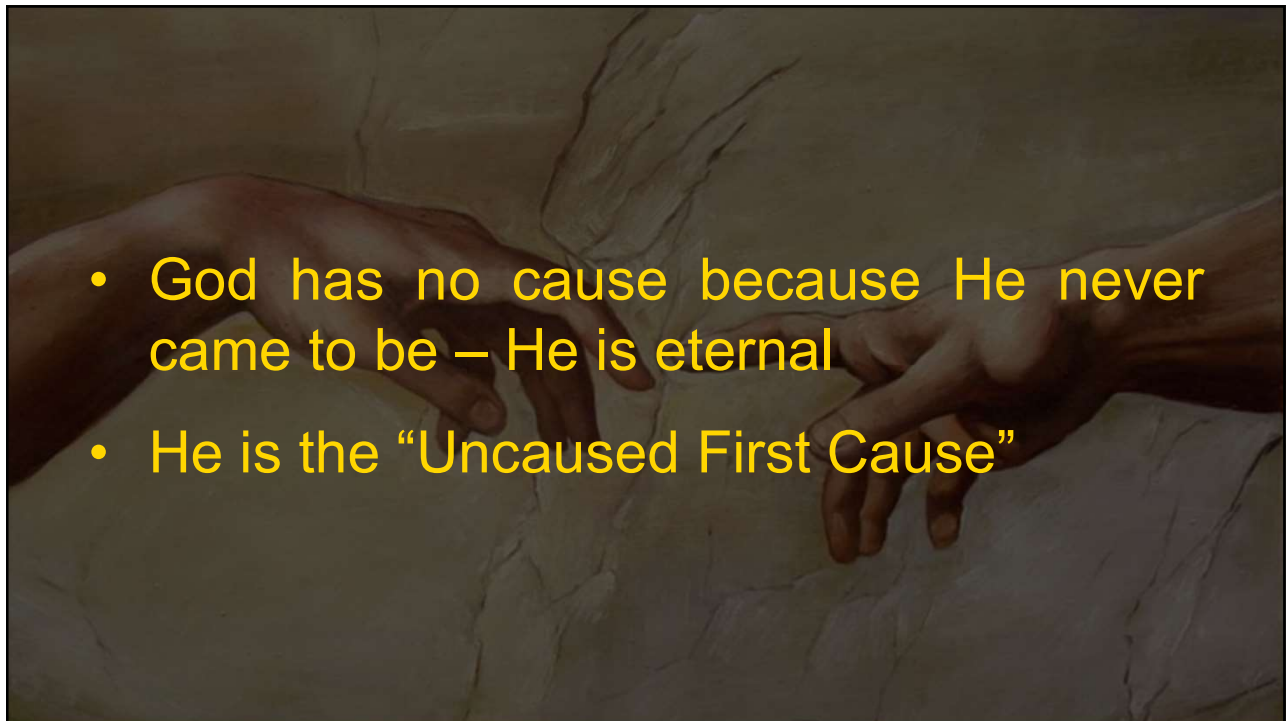

8

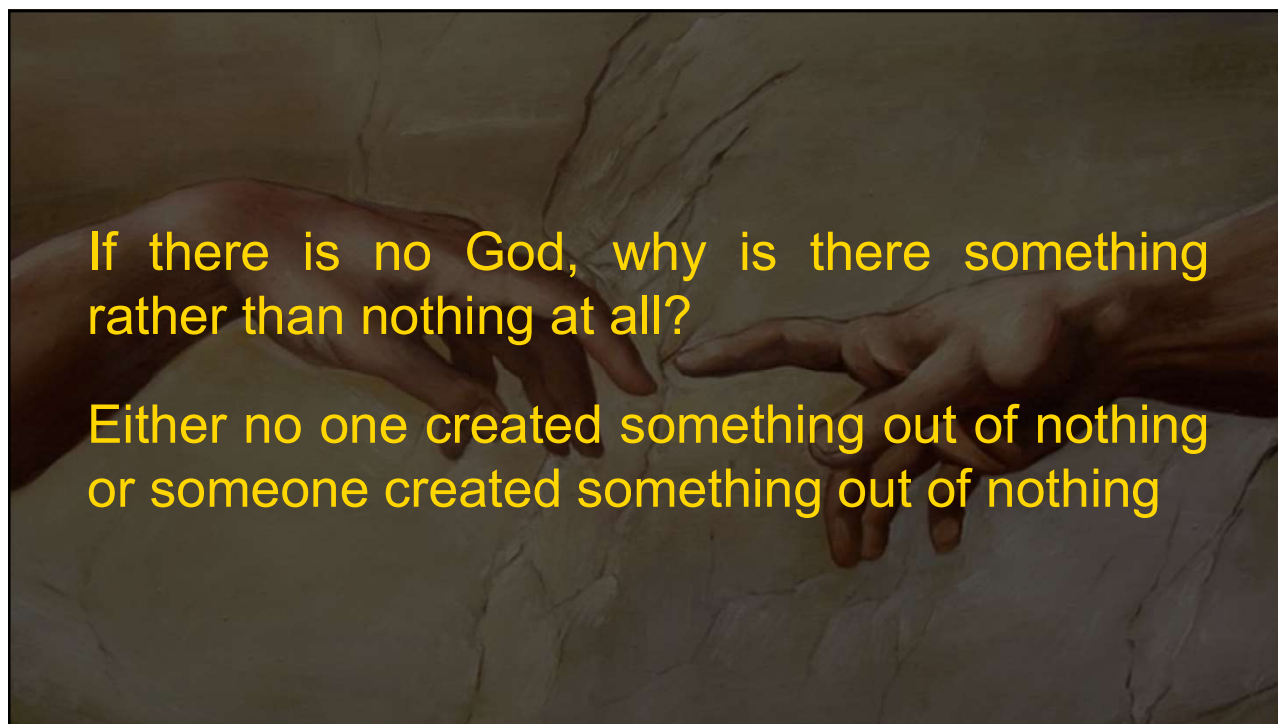

So, what caused God?

9

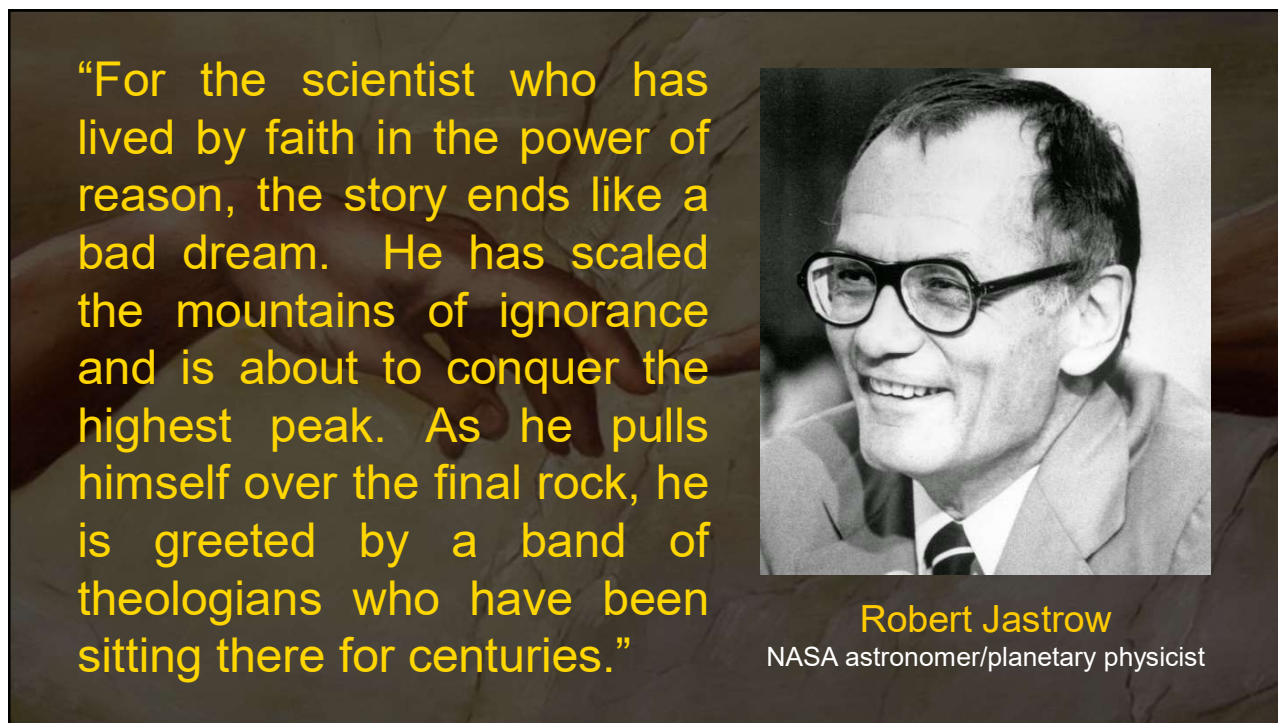

- God has no cause because He never came to be – He is eternal
- He is the “Uncaused First Cause”
